

Lately

Wenthe & Wenthe

Lately, it's not going so well
Lately I felt
Everything is just not right
When you're not being by my side

Lately, I think about you
You know I'm a fool
But I can only say
Especially at the end of a day...

Chorus
Save me, save me,
Save me from myself
Save me, save me
Tonight

Lately, when I look into my heart
Oh where do I start
I'm so sorry I hurt you
But without you I'm a fool

Lately, I got it all wrong
I should have been strong
You know I won't forgive me
Without you there'll never be a we

Chorus

Wintertime

Felicitas Kopka

It's late at night
It's wintertime
No word is coming from my mouth
I've just returned
All by myself
by myself, it's wintertime

I think of you
It's hard to see
It's hard to watch things die
All by myself, it's wintertime

And I can't even cry
I just have learned
I've learned by heart
I've learned to watch things die
All by myself, it's wintertime
And I can't even cry

I think of you
And I want to die
Don't know what's going on
Within my mind

So cold inside
So dark this night
Like wintertime
All by myself
So cold inside

So cold inside
So dark this night
Like wintertime
All by myself
So cold inside, just like wintertime
just like wintertime

Colours of the Sea

Wenthe & Wenthe

Deep inside our mind
we might never find
who we really are
and what we want's too far
away and locked inside
deep inside our mind

Deep inside our heart
we might never part
with what is lost and gone
and we might still hold on
to what should have been drowned
never ever to be found

03

Chorus:

All colours of the sea
Blue, black and green
bury deep inside
the treasures of our mind
they might never surface
we'll never know or always miss
- the colours of our mind

Deep inside of us
there's always doubt and trust
There's low and high tide,
busy days and lonely nights
But we all have this secret door
that hides what we are looking for

Chorus

Withered Leaves

Felicitas Kopka

Some withered Leaves
Are still to find
Into the darkness of your mind
Springtime sun is softly breaking through

A distant wind touches your skin
It feels like blossoms born again
Like in the desert you have found
Some drops of water on the ground.

Chorus:
Through the distance you will fly
Watching life is passing by.
Just a withered leave down on the Ground
You might have lost you might have won
The Wheels of Time they will go on
Like the echo of an endless Sound

Dark clouds are rising in the sky
You watch black Birds are passing by
You will never keep them tight

They go on sailing through the wind
You touch the blossom once again
Before it tumbles from your hand
Into the dry desert sand

Chorus

04

I Lose, You Win

Wenthe & Wenthe

Darkness all around
The snowflakes make no sound
The streetlights almost died
when we shadowed their lights

The last scene of this romance
is pityfully shaking hands
Wherever I go, whatever I see
this picture will always
stay with me

Chorus:
I lose, you win, may a new chapter begin
But I'll be missing your smile
for a very long time

The memories I have are all that is left
But I can't hold on forever
cause it's the last time we're together

And the snowflakes in your hair
make it hard to fight the despair
And your friendly smile
will surely hurt me for a while

Chorus

Take your train
I'll take the pain
You start something new
I'll wait for other dreams come true
You wave good bye
Don't mind me cryin'
You start something new
I'll wait for other dreams come true

Chorus

05

Wide Awake

Wenthe & Wenthe

I'm the sun. I'll keep you warm
I'm a shelter. I'll keep you from the storm

I'm a rock still above the sea
I'm a boat a boat for you and me

Chorus:

I'm wide awake, open eyes
I'm with you in this fire
waiting till the higher
flames burn down
burn down
burn down
burn down

I'm a star, in the darkest night
Near or far, I'll send the brightest light

I'm a friend, I'm standing by your side
We're in love and love is always right

Chorus

Little fires everywhere
Lets just not care
Whatever they say
We'll die another day

Chorus

06

Dusk till Dawn

Wenthe & Wenthe

You were always with us
But after all these many years
there came the end, there came the tears
and left us with believe and trust

And now that you are gone
I wish that you can feel the love
from some place far and far above
Maybe you're still holding on

Chorus:

Are you the shadow in my life
that follows me from dusk till dawn?
Even when I sit and moan
I get the feeling I'll survive
- at least I will from dusk till dawn

Are you one of the stars
illuminating all that's dark
sending down that little spark
that we will cherish in our hearts

It's just a ray of hope
that shimmers in the twilight,
makes the night seem almost bright
and brighter until we can cope

Chorus

07

Face of Love

Felicitas Kopka

By the Look into your Eyes
I was falling
Through the Universe

I'm so curious of your tears
They may wipe away all my fears

We both are
So afraid
Of falling
Much deeper
Than ever we
Dared to believe
For we are just
Beginners

Chorus:
In the faith of Love
In the faith of Love
In the faith of Love
In the faith of Love
In the faith of Love
In the faith of Love

Rising up into the sky
Neverending
I believe in you and me

There's something
On my mind
I'm so sure with you
You bring me Peace of mind

Bridge

Chorus

08

In a Mirror, Darkly

Wenthe & Wenthe

Hiding, we are hiding
in a mirror, darkly
Hiding, we are hiding
in a mirror, darkly

It's just a shadow in the night
that tries to keep out of the light
It's hidden in a secret place
years, months and weeks and days

It disappears in the sunlight
It's always wrong and never right
It's a miracle if it survives
It meets most people in their lives

Chorus:
We're living two lives, one on the other side
in a mirror, darkly
We're living a lie on the other side
in a mirror, darkly

Hiding, we are hiding
in a mirror, darkly
Hiding, we are hiding
in a mirror, darkly

Secrets follow you wherever you go
whether you say yes or no
They're the kind of friends you want to forget
and the things in life you most regret

They disappear in the sunlight
They're always wrong and never right
They will never ever survive
still meet most people in their lives

Chorus

09

Jungle

Wenthe & Wenthe

A jungle of illusions
sprawling through our lives
They meander in confusion
but keep us all alive

Wanna see behind the curtain?
I don't think so
Wanna know for certain?
Honey, I don't know

Chorus:
Let's be the sun that's in love with the moon
Let's be the moon that's in love with sun
So looking forward to hearing from you soon
But please don't say that I am the one
Oh please don't say that I am the one

Let's not be chained together
Let us fly
Let's not say it's forever
'cause it would be a lie

Do we wanna lose the magic?
Do we wanna be seen through?
You know it would be tragic
and the end of me and you

Chorus

10

Smile

Wenthe & Wenthe

Don't give me that,
give me that
Where's your smile?
So innocent and divine

Don't worry, please,
no worries please
the time is right
to be happy once in a while

Chorus:
Sunshine
I wish for sunshine
Sunshine
on a rainy day

Sunshine
I wish for sunshine
Oh sunshine
and your sweet smile

Don't let me
don't let me
wait too long
today's the day, nothing can go wrong

Don't be alarmed
don't be alarmed
my love is true
my only weakness is loving you

Chorus

11

1000 Letters

Wenthe & Wenthe

Everything is coming up roses
I don't know why
You and me in a bed of roses
Wondering why
There's no more sighing
No more sighing

All I feared just disappeared
I don't know why
All the sorrow, all the tears
and we're wondering why
there's no more sighing
No more sighing

Chorus:
I'll send an army of white doves
with thousand letters saying I'm in love
I'll build a fortress round our love
with an army of white doves
We're in love
We're in love
We're in love

Lalala Lalalala La

Suddenly all worries are gone
We're thick as thieves
Suddenly we're just as strong
We still believe
Like once before
Once before

Chorus

12

Different Kinds of Rain

Wenthe & Wenthe

Do you believe in fate?
And do you sit and wait
until it passes by
and grab the wings and fly?

What if you're torn apart?
What if there's no new start
and the chances you got
are now all out of stock?

Chorus:
These different kinds of rain
keep falling on my head
Is there something left to gain
or much more to regret?

These different kinds of rain
keep falling on my head
Is there something left to gain
or much more to regret?

What if the winds blow strong?
What if your umbrella's gone?
You'll see the different kinds of rain
over and over again

But you will never know
when the next storm will show
and it might just go by
and give you a chance to fly

Chorus

13

The Wrong We

Wenthe & Wenthe

The bond we had was strong
I've no idea what went wrong
You're smiling in the wrong direction
It's crystal clear there is affection

And even if I was blind
I'd see that someone else is on your mind
I want to shout and scream
and wake up from this bad dream

Chorus:
But you disappeared into the night
So how can I fight
when you're not with me
saying to the wrong girl: , we'

But you disappeared into the night
So how can I fight
when you're not with me
saying to the wrong girl: , we'

I'm sitting on the edge of my bed
Maybe I'm sitting on the edge of what we had
I can't breath anymore
hoping you'll come back through that door

It's like I never knew you
I can't tell what's false or true
I hope you'll maybe see
that you and me are really we

Chorus

14

Footprints

F. Kopka and B. Wenthe

For Nadine

I'm sleeping in a bed of feathers
I'm flying without wings
Hoping for a miracle
the universe might bring

I'm sleeping on a cloud
as soft as it can be
when suddenly a dove
brings this peaceful message to me

Chorus:
It's all about our love
we give and we receive
It's all about eternity
and the footprints that we leave

Let's jump from cloud to cloud
Let's dance here for a while
Let's send a message home
that this is not good bye

I'll always be around
And there'll be many signs
I'll be your lost and found
and you and I will be fine

Chorus

15

Home at Last

Wenthe & Wenthe

16

I'm crossing a river
ice cold but I won't shiver
cause all I do is think of you
I'll see you when our dreams come true

No matter what I love you
I'll find a way so that the three
of us will be together
tomorrow and forever

This mountain's so high
but as long as I can't fly
I will try to find the right path
that leads me home at last

Even in the darkest hour
even if I'm just a coward
I know where I belong
I'll find my way and I'll be strong

I'll forget about the fears
Let's forget about our tears
May our wings just have some feathers
we will always fly together

Let this mountain be high
but together we can fly
and surely find the right path
that leads us home at last

Killing You

Wenthe & Wenthe

You're the shadow that follows me
no matter where the sun stands
You'll find the door and the key
of my house on my land

You're in my thoughts and my dreams
and in the wine that I drink
You shine from stars and sunbeams
You dictate what I think

Until I decided to kill you
I'm sorry, you know that I have to
Cause the sky is so blue
It's a good day to kill you
The sky is so blue
It's a good day to kill you

I know that while I'm sleeping
you put the dark thoughts in my brain
And when I start moving
You sneak into my veins

I know you are so powerful
You put the clouds up for the rain
But I will take back my control
and wipe away the fear and pain

Because I decided to kill you
I'm sorry, you know that I have to
Cause the sky is so blue
It's a good day to kill you
The sky is so blue
It's a good day to kill you

Break, Break, Break

Alfred, Lord Tennyson

Break, break, break,
On thy cold gray stones, O Sea!
And I would that my tongue could utter
The thoughts that arise in me.

O, well for the fisherman's boy,
That he shouts with his sister at play!
O, well for the sailor lad,
That he sings in his boat on the bay!

Break, break, break
At the foot of thy crags, O Sea!
But the tender grace of a day that is dead
Will never come back to me.

And the stately ships go on
To their haven under the hill;
But O for the touch of a vanish'd hand,
And the sound of a voice that is still!

Break, break, break,
On thy cold gray stones, O Sea!
And I would that my tongue could utter
One thoughts that arise in me.

Break, break, break
At the foot of thy crags, O Sea!
But the tender grace of a day that is dead
Will never come back to me.

SPECIAL THANKS TO

Carlos Baker for supporting this singer/
songwriter project with his always spot
on bass.

Daniela Kresse, who joined this project
late but contributed the more, for her most
creative additions to our songs on so many
instruments as well as her critical ear
during the production process.

Dirk Flieger and Felicitas Kopka for never
getting tired to support the project with
their trusted musical input.

Gudrun Sophie Frommhage for letting us
use another of her brilliant paintings.
You, who pay us the great compliment of
listening to our music.
