Like in the desert you have found

Some drops of water on the ground.

*Withered Leaves (Felicitas Kopka)*

Chorus

**C**                    **G**                    **Dm**  
Through the distance you will fly  
**F**                    **C**  
Watching life is passing by.  
**G**                    **Dm**  
Just a withered leave down on the Ground  
**C**                    **G**                    **Dm**  
You might have lost you might have won  
**F**                    **C**  
The Wheels of Time they will go on  
**G**                    **Dm**  
Like the echo of an endless Sound

**C**  
Dark clouds are rising in the sky  
**G**  
You watch black Birds are passing by  
**Dm**  
You will never keep them tight

**C**  
They go on sailing through the wind  
**G**  
You touch the blossom once again  
**F**  
Before it tumbles from your hand  
**C**                    **Dm**  
Into the dry desert sand

Chorus (2x)
